all phone lines that are active are interrupted during the call. This is called a voice hold.

Selecting a telephone number with the card is different from typing the number in on the screen. To select a number, hold the number in your mind as you hold the telephone.

Also, you may have to hold the phone while you depress the keys. For example, if you have a 3-digit number, youFamilial clozapine intoxication. We report on 2 siblings who presented with clozapine intoxication in remission, resulting in the death of a twin

brother. There is no evidence of a genetic mutation in the cytochrome P450 isoenzyme genes associated with clozapine metabolism, and the 2 patients showed no overt clinical features of haemochromatosis. We conclude that clozapine

intoxication may result from an unusual pharmacokinetic interaction. More patients will be needed to see whether this is a common complication of clozapine therapy and whether it is a hitherto unreported complication of treatment with the N-

problems: This
application may crash
under Windows 98 if
the Free version of
Windows Media Player
is used. The same
problem occurs when
switching to the Virtual
CD feature in Windows
Media Player. The
problem can be worked

around by: To disable the CD 'Virtual Playback' feature in Windows Media Player: Open Media Player and go to Tools -> Options -> Playback Options -> CD-ROM Playback. Uncheck the 'Play disc content when paused' option. To disable the CD 'Virtual Playback'

feature in Windows
Media Player: Open
Media Player and go to
Tools -> Options ->
Playback Options ->
Audio CD Playback.
Uncheck the 'Play disc
content when paused'
option. At the very
least, GraceAmp users
should try using the
'Virtual CD' feature in

Windows Media Player, as it uses a very specific way of running the CD, and is able to handle the discs very well.
