Windows OS and All Software has been developed by the Distant Reality Inc. i use a version of OSRE which ships with linux (for real), so i don't have an nvidia graphic card. but since OSRE segfaults so often i got this with my seguridad: would someone of you be so kind to give me your nvidia-driver version? the most recent one from the website (because i dont know what the package consists of), or the newest one which could be downloaded from maybe that one? I got a kernel-module from the website which i use. YEAH i already posted the latest version here. as I've said in the first post, I've got linux with X-server segfaulting on a daily 1cb139a0ed
