
Vivid Workshopdata 12.1 Keygen [__LINK__](#)

May 8, 2014 â€” Vivid WorkShopData ATI 10.2 (WorkShop 10.2) [attachment=43910]

General information: 1. This is a client/server technology using ATI-XPS technology (namely: ATI XPS) to access remote data warehouses. 2. Works on Windows 7, Windows Server 2008 R2 (x64) + 2008 R2 (x64), Windows 8.x, Server 2012 (x64). 3. Access to resources through NAT is supported. 4. Does not work in remote desktop mode, but if necessary, this problem can be solved on the client side (for example, using a client certificate). 5. Works as a client-server based on ActiveDirectory. 6. Connects users.
